

Status of Corrective Actions / Dept of Chemistry.

S. No.	AT Findings and Recommendations	Corrective Actions	Status	Remarks
1	The number of Labs/Labs staff is not sufficient according to the strength of the students.	As the department is shifted to its building, which is under construction, the problem of required labs will be solved.	In progress	June 2025
2	The dedicated computer lab is not available for the chemistry department.	The department's computer lab will be built in the unreconstructed section currently shared with the pharmacy department.	In progress	June 2025
3	A departmental library does not exist, and the number of books in the central library is insufficient.	The department's library will be built in the unreconstructed section, and the central library is currently used for this purpose.	In progress	June 2025
4	Inadequate permanent faculty members according to the current strength of the students.	The University of Chakwal has advertised different faculty positions (Prof. AP & Lecturers) with advertisement no.03/2024 to fulfill the requirements of faculty members.	In progress	December 2024
5	Facilities for faculty members, like residential colonies, are not available.	Currently, the university has a hostel for male/female faculty. At the same time, the university will soon purchase land to build a residential colony for faculty.	In progress	

Chairman's Comments:

All the shortcomings will be addressed once the department has sufficient space.
