

Status of Corrective Actions

S. No.	AT Findings and Recommendations	Corrective Actions	Status	Remarks
1	Program Mission, Objective, vision and goals should be approved from the statutory body	Approval from statutory body	Will be included in ACM agenda 2024	Will be approved from the statutory body until December 2024
2	MOU must be signed with hospitals	Should be signed before the start of internships by students i.e. before start of Spring semester 2025	A combined MOU of the Faculty of Medicine and Allied Health Sciences with DHQ hospital Chakwal is in process through ORIC and DRG	It should be signed at the earliest since it is already too late
3	Lab Assistants should be hired	There is need of at least 03 lab assistants for smooth conduction of practical's	03 lab assistants were provided on makeshift arrangement but now there is only one naib Qasid in the Department.	From the start of Fall Semester 24-25 there will be a dire need for at least 2 lab attendants for assistance in 16 practical subjects (48 credit hours). Moreover, lab attendants with relevant qualification should be hired at priority basis
4	Nutrition dedicated labs are required	03 labs are required as per NAEAC requirements	One lab has been provided to HND Department and one will be shared by the Pharmacy Department	03 labs dedicated to HND Department should be provided
5	Allied subjects (Anatomy, Physiology, clinical biochemistry, pathology) should be taught by specialized subject experts	The relevant visiting faculty was provided in HND Department from Pharmacy and Chemistry Department	One visiting faculty specialized in MBBS and one in Biochemistry had taught these subjects in the HND Department	There is dire need of the regular appointment of visiting faculty specialized in the relevant allied subjects in HND Department
6	Departmental library should be equipped with 100 books	Demanded from the procurement office and sent to treasurer office for inclusion into FMP 24-25	In Process	Next visit of the NAEAC is expected in April 2025 so there is need to speed up the procurement process to well equip the departmental as well as the main library
7	Well-equipped separate faculty offices with desktop computer are required	Two lecturers are sharing an office by using room in the lab. There is need to provide them separate office outside the lab	Desktop computer for each faculty member office were demanded multiple times from the procurement office but not provided	There is need of separate faculty offices for two lecturers outside of the lab because lab is already congested, and some equipment and cupboards will be shifted in the room located in the lab

Dr. Sajida Akram
 Assistant Professor Department
 of Human Nutrition and Dietetics
 University of Chakwal

8	Collaboration with industry and public health departments is mandatory	Letter has been sent to multiple industries and hospitals through chairperson office for collaborations and will be followed up upon positive response from any organization	In Progress	Will be done in near future

Chairman's Comments

The deficiencies are needed to cover up before accreditation visit of NAEAC that is expected in April 2025
